SIGNIFICANT EXPERIENCE

Frontend Developer · Snabb May 2022 — Today

- I contributed to the execution of innovative projects with Vue and Quasar, excelling in the creation and management of efficient software solutions.
- Implemented advanced REST API consumption strategies, improving application performance and scalability.
- Designed and implemented effective stores in Pinia, improving application state management and ensuring efficient data flow.
- Designed modular and reusable components in Vue, optimizing the consistency and usability of the user interface.
- I actively collaborated on FHIR documentation, facilitating the understanding and adoption of standards and improving collaboration and team knowledge.
- Create visual designs in Figma for varied projects, providing creative solutions and ensuring an effective connection between design and technical implementation.

Full Stack Developer · Binapps Feb 2021 — Feb 2022

- Play an active role in the development and implementation of innovative web applications, contributing creative ideas and technical skills for the team's success.
- I took on a crucial role in providing specialized technical support and effectively resolving issues across various web applications, ensuring stability and an optimal user experience.
- Create intuitive and aesthetic user interfaces, significantly improving the user experience and application usability.
- I played an essential role in the maintenance and continuous improvement of the core ERP software and other developments, contributing to the functional growth and operational efficiency of the company.
